

TELESTRATIONS GUIDE

1. Everyone has one minute (set on **timer**) to write their phrase on their top **paper square**.
2. When **timer** goes off, everyone passes their **WHOLE** stack of papers to the person on their left.
3. Each player reads the phrase on top and then moves that paper to the bottom of the stack.
4. Reset the **timer** for one minute, then everyone **DRAWS** a picture of the phrase they read. (**For the drawings, kids should NOT use words – just pictures!**)
5. When the **timer** goes off, each player passes their stack again.
6. This time, each player looks at the picture on top and then moves that paper to the bottom of the stack.
7. Reset the **timer** and each player **WRITES** what they saw in the picture.
8. Continue resetting the **timer** after each pass. Everyone continues to sketch, pass, write, and pass until players get their original stack back (there won't be any blank papers left).
